 Mittagang Rd**

When : **Saturday, November 7th 2009
 7.00am for Breakfast**

Cost : **\$7 for hot, or \$4 for light Breakfast
 and concession price for high-schoolers**

Ken, as a palaeontologist since 1949, uses standard scientific methods to uncover the relationships between organic life in past ages. His present work is involved with the early evolution of lungfishes.

His studies conclude that body design for organisms can be changed by RNA and DNA mutation as well as gene regulation, thus undoing the concept of DNA mutation and natural selection being the controls of basic life designs. For him, natural and revelatory knowledge go hand in hand.
